ABSTRACT

Four charts developed by Market Data Retrieval, Inc. present information about public school enrollment in 1993-94 in comparison with enrollment in 1994-95. The first, "Public School Enrollments," compares total state enrollments for both years in alphabetical order and in descending order by variance, from Texas to Louisiana. A second table presents county enrollment increases for counties with enrollment changes of 1,000 students or more arranged in descending order by variance. "County Enrollment Decreases" arranges the decreases (of 1,000 students or more) in ascending order by variance. The final table, "County Enrollment Variances," arranges variances of 1,000 students or more in descending order by variance within each state. (SLD)

Market Data Retrieval's Enrollment Comparison Report 1993/94 vs. 1994/95

Page

- Public School Enrollments 1

  A comparison of total state enrollments:
  1993/94 vs. 1994/95 in alphabetical order
  1993/94 vs. 1994/95 in descending order by variance

- County Enrollment Increases 5

  A comparison of county enrollment increases (1,000 students or more) arranged in descending order by variance

- County Enrollment Decreases 10

  A comparison of county enrollment decreases (1,000 students or more) arranged in ascending order by variance

- County Enrollment Variances 11

  County enrollment variances (1,000 students or more) arranged in descending order by variance within each state
